

## That Virtue Lesson on Justice

### *How To Practice Justice!*

Justice helps us show reverence to God and respect to our fellow man. When we are just, we can treat every person equally and fairly. Justice allows us to have good and peaceful relationships with others.

Check it out! Look for right ways to practice the virtue of Justice in the boxes below. Put an X on the blocks that do *not* give good examples.

Share your extra belongings with others.	Take care of your belongings as a sign of gratitude.	Ignore those you don't know.
Speak to everyone kindly.	Argue with people who have different opinions than you.	Say grace before meals.
Make new students feel welcomed in your class.	Only invite "good players" to be on your team.	Be very picky about the foods you eat, even if it means throwing meals away.
Comment about someone behind their back.	Tell the truth.	Play fairly, and be a good sport.
